

# SHARK

# MINI PRO-TACK WELDER

## Part No. 17042 Mini Pro-Tack Plastic Welder

The Mini Pro-Tack Welder is Eco-friendly like the Pro-Tack Welder and is great for repairing almost anything plastic.

Two new functions give you the ability to heat/cut, repair holes, and solder lead-tin items. The 110 volt tool gives you a 50 Amp output when welding and a 5-10 Amp output when stapling.

<u>PART NO.</u>	<u>VOLTAGE</u>	<u>MAX OUTPUT</u>	<u>WEIGHT</u>
17042	110V	50A	3 lbs.

### Features & Benefits:

- Easy to Use
- 2 New Functions
- Low Voltage Output
- Safe and Reliable  
(with overheating protection)
- Quick Heating and Cooling
- Convenient
- High Efficiency

**Patented Heating Knife**  
PATENT NO. 201XXX530336

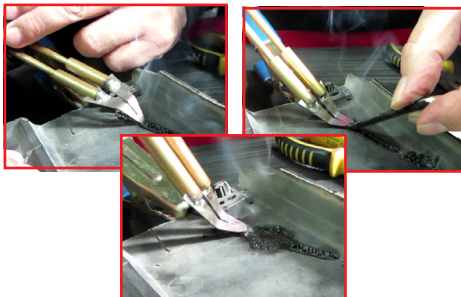

### Kit Includes:

- Storage Case
- Welding/Stapling Tool
- Staple Box
- 4 Styles of Staples - 80 total

### • Welds Plastic without Staples

Welding cracks and filling holes.  
(Shark does not supply plastic rods.)

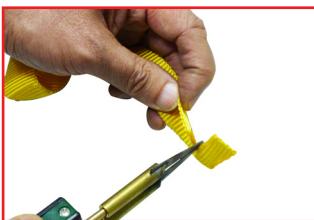

### • Tacking with Staples

Various staple configurations allow you to sew and seam all types of cracks.

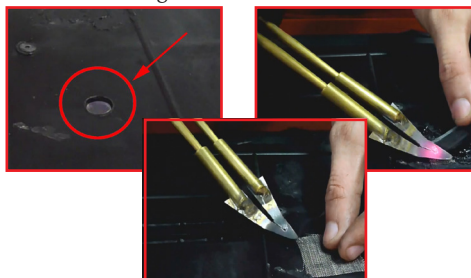

### • Heat Cutting

Easily cuts plastic tape, or thread.

### • Repairing Holes

Good for repairing different holes with stainless netting

### • Lead-Tin Soldering

For quicker, higher efficiency than normal soldering guns or irons.
